sick of the fuck ups and all the shit that lingers around
on your conscience and the everyday parasite
that itches your skin every night until they scratch your
pigment away
they're bored of all the shit that hangs around
till I desensitise myself
I desensitise myself

I cannot tolerate
a single moment of electricity

sick of the fuck ups and all the shit that lingers around
on your conscience and the everyday parasite
that itches your skin every night until they scratch your
pigment away
they're bored of all the shit that hangs around
till I desensitise myself
I desensitise myself

I cannot tolerate
a single moment of electricity

I cannot tolerate
a single moment of electricity

stay with, stay with me
stay with, stay with me

stay with stay with me
stay with stay with me
stay with stay with me
stay with stay with me
