"She Is Weird City"

There's something different about you this year
Do you remember the time that we met
Back in the kitchen you talked about love
Took me through the house, showed me around
One thing, only one thing could make me happy
One thing, only one thing could make me happy this
year
There's times if I could have hit you I would
What would have happened if we were alone
Your mouth moves just down to frown
To make my fingers ache

One thing, only one thing could make me happy
One thing, only one thing could make me happy this
year
There's something different about you this year
Do you remember the time that we fell
Back in the kitchen you talked about him
Take me through the house, show me around
One thing, only one thing could make me happy
One thing, only one thing could make me happy this
year
