### 1. VERSE :

Everytime you put a little spell on my sky  
I realise that I need you to the day that i die  
I need you to the day I die  
I know your fingertips will paint me rainbows in the  
night  
You're my thunder my rain  
Into darkness you bring light  
Into darkness you bring light

### BRIDGE :

Tell me who sent you ?  
Tell me who made you ?  
When I look at you I see

### CHORUS :

God is a woman

God must be a woman

### 2. VERSE :

A million of good reasons couldn't take us apart  
You moved into my body, my soul, my heart  
I knew it from the very start  
You singin' all the songs in my personal charts  
You makin' me a planet in a world full of stars  
In a world that is full of stars
