

I will pick you up, in my stretch limo
Together we can cruise down, to San Limo
I will pick you up, in my stretch limo
Together we can cruise down, to San Limo

If it's good then it's good, if it's not then it's not
But you got me kinda high, baby, you don't stop
If it's good then it's good, if it's not then it's not
But you got me kinda high, baby, you don't stop
If it's good then it's good, if it's not then it's not
But you got me kinda high, baby, you don't stop
If it's good then it's good, if it's not then it's not
But you got me kinda high, baby, you don't stop
If it's good then it's good, if it's not then it's not
But you got me kinda high, baby, you don't stop
If it's good then it's good, if it's not then it's not
But you got me kinda high, baby, you don't stop
If it's good then it's good, if it's not then it's not
But you got me kinda high, baby, you don't stop
If it's good then it's good, if it's not then it's not
But you got me kinda high, baby, you don't stop

If it's good then it's good, if it's not then it's not
But you got me kinda high, baby, you don't stop
If it's good then it's good, if it's not then it's not
But you got me kinda high, baby, you don't stop
If it's good then it's good, if it's not then it's not
But you got me kinda high, baby, you don't stop
If it's good then it's good, if it's not then it's not
But you got me kinda high, baby, you don't stop
If it's good then it's good, if it's not then it's not
But you got me kinda high, baby, you don't stop
If it's good then it's good, if it's not then it's not
But you got me kinda high, baby, you don't stop
If it's good then it's good, if it's not then it's not
But you got me kinda high, baby, you don't stop
If it's good then it's good, if it's not then it's not
But you got me kinda high, baby, you don't stop
If it's good then it's good, if it's not then it's not
But you got me kinda high, baby, you don't stop

If it's good then it's good, if it's not then it's not
But you got me kinda high, baby, you don't stop
If it's good then it's good, if it's not then it's not
But you got me kinda high, baby, you don't stop
If it's good then it's good, if it's not then it's not
But you got me kinda high, baby, you don't stop
If it's good then it's good, if it's not then it's not
But you got me kinda high, baby, you don't stop
If it's good then it's good, if it's not then it's not
But you got me kinda high, baby, you don't stop
