Stay with me
Why must we say goodbye
Darling there's a time to love
And a time to cry

Though I know
All too soon tears may fall
And leave this?
That you kissed me today
So let's love her while we may
For tomorrow somehow
Comes a time to regret
Ahh, but time? now

All I want you to do is stay with me
Don't let love pass us by
Darling there's a time to love
Oh, right now, a time to cry

This shining hour is too sweet to be?
Awww, like a flower right now
Love can? some I know

Hmmm, can anybody say
(Who can say)
Just when love?
Darling there's a time to love
(Time to love)
Why don't you believe me when I say a time to cry,
yeah

Hmmm mmmm
Ooohhh wooo, girl
Uh huh, can you hear me talkin' right now, yeah
