"Vanishing Act"

It must be nice to disappear
to have a vanishing act
to always be looking forward
and never looking back
How nice it is to disappear
float into a mist
with a young lady on your arm
looking for a kiss
It might be nice to disappear
to have a vanishing act
to always be looking forward
never look over your back
It must be nice to disappear
float into a mist
with a young lady on your arm
looking for a kiss
It must be nice to disappear
to have a vanishing act
to always be moving forward
and never looking back
How nice it is to disappear
float into a mist
with a young lady on your arm
looking for a kiss
Looking for a kiss
float into a mist
