You know the drill
Demerol economy
Drunk on civil rights
You know the drill
Demerol economy, see a stranger
Spike his drink with piss and danger
Then who'll have the male psychosis? Not us!
Then who'll hate world around them? Not us!
This is how our cherished legends take shape
But from our favorite stories can some truth escape?
No thank you, older brother, we don't rape
No thank you, goddess nature, we don't rape
No thank you, ancient wisdom, we don't rape
Thank you
