Hurled by the road of your life  
Your stomach burned at the stake  
You tried to escape  
You thought succeeded in  
But you flew too high  
The bound, the energy  
You gave to yourself  
Turned against you

Seeing the white infinite  
Discovering the living beauty  
And going to the excruciating  
Annihilation  
Flying away and hoping  
Sinking and bursting  
Malignant growth  
Malignant growth

Attraction of the void  
Your fall begun  
Weaker arriving in the absolute  
A caughting black hole  
Before your eyes  
Deep into the point of no return  
This force making yourself dreaming  
Now rambling  
Got the better of your will  
The others: stupid mankind didn't understand  
But are their lives worth yours?

Seeing the white infinite  
Discovering the living beauty  
And going to the excruciating  
Annihilation  
Flying away and hoping  
Sinking and bursting  
Malignant growth  
Malignant growth

Seeing the white infinite  
Discovering the living beauty

And going to the excruciating  
Annihilation  
Flying away and hoping  
Sinking and bursting  
Malignant growth  
Malignant growth
