Throwing down the gauntlet now
Call the bluff of the liar
Saving lives, never run to hide
Death's door opened with fire

You find that destiny controls reaction
Standing there with an upraised knife
Before, then in a sea of blood
Men without fear fight for the Earth

Seek and fight, don't wait to be found
Move to meet with the future
Hunt and trap, turn the tables on them
Turn back the tide of the looter

You find that destiny controls reaction
Standing there with an upraised knife
Before, then in a sea of blood
Men without fear fight for the Earth

Reason - pierce through all despair
Treason - lay the anger bare
Wear on - strike through the armour
Crimson - won't mean surrender

Before, then in a sea of blood
Standing there with an upraised knife
Before, then in a sea of blood
Men without fear fight for the Earth

Reason - pierce through all despair
Treason - lay the anger bare
Wear on - strike through the armour
Crimson - won't mean surrender
