Run from the night, blind love's  
Burnin'  
Through your eyes, my empty  
World is turning  
Without you now, tell me how to  
Just let you go  
I'm a victim of your touch, your  
Fire  
You burn me deep inside

Wild wind carries you away  
Out on my own, cryin' in the rain

(Chorus)  
Gave me no warning, cold winds  
Are blowing  
I'm so lost without your love  
Gave me no warning, cool fire,  
Lost emotion  
I'm so lost without your love

Lost in a dream, the wild wind  
Calling  
I can't get free, my soul forever  
Falling  
Alone in your love, wounded  
Dove, crying in the rain  
Now I'm dancing in the shadow of  
Love, oh yea

Voices screaming in the dark  
I'm all alone, stranger on the run

(Chorus)
