When we were dancing and you're dangerously near
me

I get ideas, I get ideas

I want to hold you so much closer than I dare to

I want to scold you but I care more than I care to

And when you touch me with the fire in every finger

I get ideas, yes, I get ideas

And after we had said goodnight and then you linger

I kinda think you get ideas too

Your eyes are always saying the things you're never
saying

I hope they will be saying that you could love me too

For that's the whole idea, it's true

Lovely idea that I'm falling in love with you

And after we had said goodnight and then you linger

Babe, I kinda think you get ideas too
