Maybe it's because the kiss you gave me  
Touched my heart and went right through  
Now I can't tell you why, I only know that I  
Fell helplessly in love with you

Oh, maybe it's because the song we danced to  
Told a story old and new  
I can't figure out just why it came about  
Or how I fell in love with you

I could say you're grand and therefore  
I care for you so  
But there is a why and wherefore  
And I'd like to know

Now maybe it's because the star I wished on  
Made a certain wish come true  
Or it just could be that you were meant for me  
And maybe I was meant, oh baby, meant for you

Oh baby, or it just could be that you were meant for me  
And baby, for you
