Its probably more likely Roy Jones will get his ass kicked He has made some imprssive plastic but thats it he never crafted a classic with an extended track list who tries to make tremendous rap hits on 12 inches anyways? he doesnt understand that this is hells business all the labels care about is sales figures and your whereabouts on the charts and rappers livin at there parents house for tryin to invent the damage sound which obviously isnt lous intent to save you the suspense his newest attempts a dissapointment and a clear case a great unlistened enjoyment for career stakes so here's the answer and the ointment, show em no love your favorite dick eating critic also known as

O'Dub ****CHORUS**** I said pray for the sunshine warmth today But the cold rain cloud gon wash the sun away You know this guy cries child but dont you weap Cause mother son even goes to sleep I said pray for the sunshine warmth today But the cold rain cloud gon wash the sun away You know this guy cries child but dont you weap Cause mother son even goes to sleep [LOUIS LOGIC] So this is what you've all been asking for I never let your small talk make me mad before Cause after all when its said and done Its as if these cats wish my only bread was crumbs so let em front Everyones a critic these days, not to complain Theese little djs dis wax of the popular phrase But the topics the same, money sex and guns Is that less expressive from how indie snobs expect it done When underground records come with three choices They cant spit You cant understand it Or its punks with weak voices And you rejoice at three joints of the 20 tracks only some were fat Then you wish you had your money back Therell be none of that in my wax or stage show I make extra sure to stay dope im spittin for your pesos And kick them on the same flow to show you that im anti wack Wether indie or major and their aint to many fans like that ****CHROUS 2**** I said pray for the sunshine warmth today But the cold rain cloud gon wash the sun away You know this guy cries child but dont you weap Cause mother son even goes to sleep Blue skies and the sunshine come today To the rain clouds gone washed the sun away I know that things arent the way that they supposed to be so I keep my umbrella so close to me [LOUIS LOGIC] Younge Fella you wouldnt know a dope emcee if the lord made them grow from trees so some fellas wouldnt know a dope emcee if the lord made them grow from trees They used to love my shit before the suburb chicks Wanted to suck my dick Now the rain done came It's like they hate the flow, cause the radio increased the ratio Its the same dumb thing They might say my name, to the sound that creates migraines Which means i dont go counterfit to change my game I got a plan to be fresh, and even if the first families stressed God damn the regret I cant be supressed
