All around the world.
My love will always be the same.
New york, tokyo, rome,
Paris, egypt or spain.

Uh..huh..

Where ever I am,
I will always think of you,
No matter baby,
My love will always get to you,
Yeah.

When I think of you,
My love can fly.

(arms around the world.)

You and i,
Gonna wrap our loving arms all around the world.
Gonna capture all the love in the universe.
Gonna make it shine.
And wrap our arms around the world.

(around the world.)

I swim ocean,
To be with you every night, yeah.
I cross the desert,
And bring to you the sahara light.

Uh..huh..yeah.

Where ever I am,
I will always come back to you,
As long as you're there for me baby,
I'll find you,
Yeah.

When I think of you,
My love can't fly.

(arms around the world).

You and i,
Gonna wrap our loving arms all around the world.
Gonna capture all the love in the universe.
Gonna make it shine.
And wrap our arms around the world.
(the world.)
I never thought that i
Could find no one.
I never thought that i
Could reach the sun.
I never thought that i
Until your love,
All around the world!

You and i,
Gonna wrap our loving arms all around the world.
Gonna capture all the love in the universe.
Gonna make it shine.
And wrap our arms around the world.

You and i,
Gonna wrap our loving arms all around the world.
Oh yeah!
Gonna capture all the love in the universe.
All around the world.
Gonna make it shine.
And wrap our arms around the world.
Gonna wrap.
