(by sherman)

I have waited far too long
For someone who's special to me
I've always been so strong
But now I'm beginning to feel
What they feel
It's so that I'll heal
And not just for the fear
And now what we need
Don't know what your doing for me

Oh yeah!

Just when I thought there was no way out
Just when I thought that my love will be without
One thing that everybody needs in their life
One thing that everybody needs to survive
Is love
Is love, love, love

Friends were always on my side
There for me on lonely times
But now I feel so right
To know that your arms are holding me tight
Oh so tight!
Oh so tight!
Feeling that I'm missing tonight
When I cry
When I cry
It's the joy that you do for me

Oh yeah!

Just when I thought there was no way out
Just when I thought that my love will be without
One thing that everybody needs in their life
One thing that everybody needs to survive
Is love
Is love, love, love
Oh love, love, love, yeah!

Rock, don't stop
Rock, don't stop
Rock, don't stop
Oh love, love, love
What they feel
What they feel
What they feel
It's so that I'll heal
It's so that I'll heal
And not what we need
What we need
Just you and me

Just when I thought!
Just when I thought there was no way out
Just when I thought
Just when I thought there was no way out
Just when I thought, yeah!
Just when I thought there was no way out
Just when I thought, yeah, thought, yeah!
Just when I thought there was no way!

Just when I thought there was no way out
Just when I thought that my love will be without
One thing that everybody needs in their life
One thing that everybody needs to survive
Is love
Is love, love, love

Rock, don't stop
Rock, don't stop
Love, love, love, yeah!
Rock, don't stop
Rock, don't stop
I've found you
Love, love, love
Rock, don't stop
Rock, don't stop
I've found you
Rock, don't stop
Rock, don't stop
Sweet love
Sweet love, love love
Rock, don't stop
Rock, don't stop

[repeat to fade]
