Written by: kearney/robson

Gonna find that ladder again  
The one that says you never ever, walking  
I think I know the words off by heart  
I used to say them when you were too far away

I hear your lustings  
Everybody surely knows  
Now you ever dawn  
I can't believe that nothing's happening

Who do you love  
Who do you love  
I'm giving you the answer baby  
This is what you're doing to me, baby

Who do you love  
Who do you love  
This is my wake up call  
This is your early warning

Before I met you I was so young, and strong  
I hope this don't mean to not keep me on  
I feel afraid about what's the point in going on  
If you don't notice when they play  
Our favourite song

I hear your lustings  
Everybody surely knows  
Now you ever dawn  
I can't believe that nothing's happening

Who do you love  
Who do you love  
I'm giving you the answer baby  
This is what you're doing to me

Who do you love  
Who do you love  
This is my wake up call

This is your early warning

Who do you love  
Who do you love  
I'm giving you the answer baby  
This is what you're doing to me

Who do you love  
Who do you love  
This is my wake up call  
This is your early warning

Oh yeah  
Who do you love  
Yeah, yeah!  
This is what you've doing to me, yeah

Who do you love  
Who do you love  
This is my wake up call  
This is your early warning

Who do you love  
Who do you love  
I'm giving you the answer baby  
This is what you're doing to me

Who do you love  
Who do you love  
This is my wake up call  
This is your early warning

Who do you love  
I said who do you love  
I'm giving you the answer baby  
This is what you're doing to me  
Yeah, yeah

Who do you love  
This is my wake up call  
This is your early warning  
Oh yeah
