It's bedtime

Illogical when we fuss and fight  
Magical when we kiss goodnight  
I don't wanna fight you no more  
(Baby, don't fight no more)

Impossible when we fight to win  
Sexual when we're skin on skin  
What are we arguing for?  
(Don't you know)

It's close to midnight  
We've been fighting too long  
Let's say we're sorry  
And admit we're both wrong

Now come and kiss me  
Come and kiss me goodnight  
Let's make up before bedtime  
(Bedtime)  
Some sexual healing will help us unwind  
So let's make up before bedtime

Sensible when we take time out  
Irrational when we scream and shout  
You know, you're all that I need  
(Baby, you're all I need)

So natural when we're one on one  
Joy above when we're making up  
So bring your body to me  
(Body to me)

Don't you know it's getting late now?  
And too much has been said  
Call it a night, baby  
Let's go to bed

Now come and kiss me  
Come and kiss me goodnight  
Let's make up before bedtime

(Bedtime)

Some sexual healing will help us unwind  
So let's make up before bedtime

Come on now it's bedtime  
Come on now it's bedtime  
Let's make up before bedtime  
Let's make up before bedtime

Now come and kiss me  
Come and kiss me goodnight  
Let's make up before bedtime

(Bedtime)

Some sexual healing will help us unwind  
So let's make up before bedtime

(Bedtime)

Now come and kiss me  
Come and kiss me goodnight  
(Kiss me good)  
Let's make up before bedtime  
(Let's make up, bedtime)  
Some sexual healing will help us unwind  
So let's make up before bedtime  
(Bedtime)

Now come and kiss me  
Come and kiss me goodnight  
Let's make up before bedtime  
(Bedtime)  
Some sexual healing will help us unwind  
So let's make up before bedtime
