It's bedtime
Illogical when we fuss and fight
Magical when we kiss goodnight
I don't wanna fight you no more
Baby don't fight no more

Impossible when we fight to win
Sexual when we're skin on skin
What are we arguing for
Don't you know
It's close to midnight
We've been fighting too long
Let's say we're sorry
And admit we're both wrong

Now come and kiss me
Come and Kiss me goodnight
Let's make up before bedtime
Some sexual healing will help us unwind
So let's make up before, bedtime

Sensible when we take time out
Irrational when we scream and shout
You know you're all that I need
Baby, you're all I need
So natural when we're one on one
Joy a ball when we're making up
So bring your body to me
Body to me

Don't you know it's getting late now
And too much has been said
Call it a night baby
Let's go to bed

Now come and kiss me
Come and Kiss me goodnight
Let's make up before bedtime
Some sexual healing will help us unwind
So let's make up before bedtime

Come on now it's bedtime
Come on now it's bedtime
Do-do do do-do-do-do
Do-do do do-do-do-do do
Let's make up before bedtime
Do-do do do-do-do-do
Do-do do do-do-do-do do
Let's make up before bedtime

Now come and kiss me
Come and Kiss me goodnight
Let's make up before bedtime
Some sexual healing will help us unwind
So let's make up before bedtime

Now come and kiss me
Come and Kiss me goodnight
Let's make up before bedtime
Some sexual healing will help us unwind
So let's make up before bedtime

Now come and kiss me
Come and Kiss me goodnight
Let's make up before bedtime
Some sexual healing will help us unwind
So let's make up before bedtime
