Because I had a dream
I was an egyptian queen
Floating down the Nile
In serious style
I thank the sun
For making you my king
And I never wanna wake up from this, dream

I close my eyes and I fall to sleep
In the twilight hour, something happened to me
When I woke up so surprised to see
That I had become an egyptian queen
I don't wanna stop this dreaming
I just wanna keep believing

Because I had a dream
I was an egyptian queen
Floating down the Nile
In serious style
I thank the sun
For making you my king
And I never wanna wake up from this, dream
No, no never

In my adventure your holding me
My egyptian god, your my rameses
And we'll get lost in this mystery
To the big romance won't you come with me
I don't wanna stop this dreaming
I just wanna keep believing
This dream will never go away
Not even in the light of day

Because I had a dream
I was an egyptian queen
Floating down the Nile
In serious style
I thank the sun
For making you my king
And I never wanna wake up from this, dream
No, no never

Can I be your own egyptian queen
I will never tire with my rameses beside me, yeah
Let me be your own egyptian queen
We can live forever in this golden fantasy

Because I had a dream
I was an egyptian queen
Floating down the Nile
Oh yeah
In serious style
I thank the sun
For making you my king
And I never wanna wake up from this, dream

Ooh I had a dream
I was an egyptian queen
Floating down the Nile
Oh yeah
In serious style
I thank the sun
For making you my king
And I never wanna wake up from this, dream
