Written by: climie/noel/george

I had lovers come and go
But I always believe
There was someone out there for me
Someone who could give me
What I need
What I need

All the nights I spent alone
I kept on believing
Kept on holding on
One day you came along and I find you
Free
Free the land

I was so afraid
To let anyone in
You were patient
Gave me strength within
Now I conquered all my fears
Baby, no more wasted tears

Pray and bonanza
Now that you're here

I feel the healing love baby
Feel the healing love
Rush over me
Sunshine in the rain

Feel the healing love baby
Feel the healing love
Rush over me
I don't want you, getting the pain

Feel the healing love baby
Feel the healing love
Rush over me

Yes my love
Oh my love

Suddenly me life has changed
Baby with your kiss
I've re-discovered tenderness
Felt like I've been blessed
You set me free
Free, yeah yeah

I've been lifted
Yeah it's true
Every night I'm with you
Wish it could last forever
Believe I found my heaven
In this love
In this love
You've given me
You've given me

But I was so afraid
To let anyone in
You were patient
Gave me strength within
Now I conquered all my fears
Baby, no more wasted tears

Pray and bonanza
Now that you're here

I feel the healing love baby

Feel the healing love
Rush over me
Sunshine in the rain

Feel the healing love baby
Feel the healing love
Oh yeah
Rush over me
I don't want you, getting the pain

Feel the healing love baby
Feel the healing love
Rush over me
Only you can
Only you can
Heal the pain

Feel the healing love baby
Feel the healing love
Rush over me

Now I want you
Now I want you
Oh yeah!
Now I want you
My healing love

Now I want you
Now I want you
Oh yeah!
Now I want you
My healing love

Only you can
Only you can

I had lovers come and go
But I always believe
But I always believe

Feel the healing love baby
Feel the healing love
Rush over me
Like the sunshine in the rain

Feel the healing love baby
Feel the healing love
Oh yeah
Rush over me
I don't want you, getting the pain
Yeah

Feel the healing love baby
Feel the healing love
Rush over me
Sunshine in the rain

Feel the healing love baby
Feel the healing love
Rush over me
I don't want you, getting the pain

Oh

Only you can
Only you can

Only you can
