Doc give dad some medicine  
Her voice is in his head  
Quite anesthesia  
Never found out what they said

Sometimes still remembers  
Few scratched in time it seems  
Though quite anesthesia  
Exploring the seams

I watched you my whole life  
Givin' in to myth of guilt  
When all you did was stay up late  
Tipping all yours into milk

Silver hair, cigarette  
And something on TV

I watched you my whole life  
Givin' in to myth of guilt  
When all you did was stay up late  
Tipping all yours into milk

Silver hair, cigarette  
And something on TV
