Larson / Hoffsten - Hoffsten)

Just like fossil

Frozen in time I couldn't move

My heart, my soul, my feet

Then you unearthed me

And put me in a hot pulsating groove

Now I'm a slave to the beat

Chorus:

You're bringing out the Elvis in me

Making my hips wanna swing

You bring out the Elvis in me

Making me burst out and sing

When I'm with you

I never have to feel like a sardine

In a little metal can

I'm more like a wild shark

Who travels in a pink limosine

Together with my fans

Chorus

People think that I'm a silly fool

Cause I think you are so nice and cool

And some people say that you're so square

But I don't care

Cause you're bringing out the Elvis in me
