"If I Should Fall"

we said we'd stay together
baby come by me
life come the twilight
should we lose our way
if i swear ok ahead should stick for you
i'll wait for you
if i should fall behind wait for me

we swore we travel darling side by side
we'd help each other
stay either strike
but each others steps fall so differently
i'll wait for you and if i should fall behind wait for me
now everyone dream of
a love lasting and true
oh but you and i know what this word can do
so let's make our steps clear
that the other may see
i'll wait for you and if i should fall behind wait for me

now there's a beautiful river
in the valley ahead
then if the oaks bound
soon we'll be aware
should we lose each other in the shadow
i'll wait for you and if i should fall behind wait for me
i'll wait for you and if i should fall behind wait for me
i'll wait for you and if i should fall
wait for me
