I took back my promises  
And all the love I had to give  
I'm tired of all the lies  
And all the fake ass tears in your eyes  
You made these vows  
Take them back  
Now my heart is turned to black  
Now you got me feeling blue  
Now I hate you too  
I'm just wondering  
Are you gonna find someone else  
Cause I know that you're gonna be by yourself  
I don't need nothing else  
From you

I'm taking back all your stuff  
It just seems I've had enough  
You think your so tough  
Then why couldn't you show me some love  
You made these vows  
Take them back  
Now my heart is turned to black  
Now you got me feeling blue  
Now I hate you too  
I'm just wondering  
Are you gonna find someone else  
Cause I know that you're gonna be by yourself  
I don't need nothing else  
From you
