Only you can bring back the good old days
Let's hear it again for our long lost friend
Who passed away, maybe it's better that way
And even if I'm thinking upside down
You're right side up with me, my friend
You know that you're the one for me.
Only you still can see a memory
Like what about the time when you took my arm
You said come with me, you don't have to be strong
So here's a little something to relax your mind
Now that we are two of a kind, my friend
All we are is two of a kind.
Do do do do
(instrumental)
Only you can bring back the good old days
Like what about the time when you slipped and fell
But you didn't wanna just do all the damage, you'd
mean well
You don't do nothing, and you land in jail
Farewell, farewell, farewell, my friend
They took all your money
Now look what they've good for you.
Do do do do
(instrumental)
Only you still can see a memory
Like what about the time when you took my arm
You said come with me, you don't have to be strong
So here's a little something to relax your mind
Now that we are two of a kind, my friend
All we are is two of a kind, my friend
Save a little space for me, my friend
Save a little space for me!
