People check to tell me
What they think is right
I don't listen to them
Don't know day from night

I'll go through life searchin'
Tryin' to find the one
I'd go slip, slip
You'd go slip, slip away

And I don't need you
To help me find my way
I can make it
If I just don't see your face

Once I had a problem
Didn't know what to do
Now I've got no problems
All I had was you

Guess I'll keep on searchin'
And try to find the one
'Cause I'd go slip, slip
You'd go slip, slip away

And I don't need you
To help me find my way
I can make it
If I just don't see your face
