She's crying, all alone
Everyday, it's the same, just another hoe
He's lying, he's not alone
At cadets, flirting hard with another hoe...

So stoned, he stumbles in
Throws the condom in the tent
Acting innocent
She wont ask, what he did...
Just wants a kiss from his lips
Cause she misses him

All this time, it kills me

(Chorus)
It's the same game that they play
Their gonna lie
Night after night
Another hoe, another skank
They don't see that they suck at lying...
We gotta kill them, k-k-kill them now
We gotta kill them, k-k-kill them now
We gotta kill them, k-k-kill them now
We gotta kill them, k-k-kill them now
We gotta kill them,
K-k-kill them now

He wakes up, to go away
Takes his weed, his bear
& His mothers phone
He's two-faced
& A liar
Every lie by design
" They come first "...

She's dressed up, every night
Texting phones, getting mad
Knowing he's with her
He texts her, He runs away
She always knows that he's got another dirty date

All this time

All this time
It kills me

(Chorus)

It's the same game that they play
Their gonna lie
Night after night
Another hoe, another skank
They don't see that they suck at lying...
We gotta kill them, k-k-kill them now
We gotta kill them, k-k-kill them now
We gotta kill them, k-k-kill them now
We gotta kill them, k-k-kill them now
We gotta kill them,
K-k-kill them now

They say they don't lie...
But we can't seem to forget all the times
They say they don't lie...
But we don't fall for their stupid lines
They say they don't lie...
But we can't keep forgiving them
Everytime, everytime...

(Chorus)

It's the same game that they play
Their gonna lie
Night after night
Another hoe, another skank
They don't see that they suck at lying...
We gotta kill them, k-k-kill them now
It's the same game that they play
Their gonna lie
Night after night
Another hoe, another skank
They don't see that they suck at lying...
We gotta kill them, k-k-kill them now
We gotta kill them, k-k-kill them now
We gotta kill them, k-k-kill them now
We gotta kill them, k-k-kill them now
We gotta kill them,
K-k-kill them now
