Before you can do that you'll need some of this
When you've had some of this you'll need some of
these
Before you can get down from the trees

Are you, are you, are you, clean

Does it mix with this
How many do you need
Is there a hungry heart
You need to feed

I said, does it mix with this
How many do you need
Is there a hungry heart
You need to feed

Are you clean? 3xs

You were down
Now you're higher than NASA
Once you're up
Why come down at all?

You could be a star
Higher than NASA
Could be a star
Born again

Are you clean?
Are you free?
Are you free?
Are you free?
Are you free?
Are you clean?
Are you clean?
Are you clean?

(What's that mean?)
