Motorcycle and me

Motorcycle set me free

The motorbike don't go to fast

Just sets me free

Just you and me

You set me free

Just you and me

You set me high

High, high, high

I feel warm inside

On my motorcycle

The wind is all around

We are free

Me and the motorcycle

We, we are free

You set me high

High, high, high

You set me high

You set me free

You set me free
