One two, three, four

Use me come on and use me
Say do anything so's that I'm not alone again
Now darkness and emptiness
And happiness can all be mine

Just use me so's that I'm not alone
We're not alone

You really got me come on and fuck with me
Just believe in me come on and use me
Say who you want to use, is it my honey you need?
So what's on my mind again

Abuse me confuse me drink me do me
Come with me so's that I'm not alone
We're not alone not alone
