

Love And Rockets "Youth"

Visit "[Youth](#)" on MotoLyrics.com

Youth, so self possessed
Sometimes no self respect
Youth wants to give you all
Youth could be your downfall

Here comes another revelation
A revolution for us all
I never believed what you said
I only believe what we've done

"We are the energy"
God bless, God bless, God bless us all
"We are the energy"
God blessed, God blessed, God blessed our soul

Do do do do dooo
Do do do do dooo
Do do do do dooo
Do do do do dooo

Inhibitions, the exhibitions
Don't want to believe in this no more
"We are the energy"
Don't want to believe in ghosts no more

"We are the energy"
God bless, God bless
God bless us all
