Clap your heels oh you walk so fine
you look so good oh you have to be mine
pardon me sir but do you have the time?
why so many questions man im losing my mind?
straighten me up cause im falling out of line
better hurry up cause im runnin behind

you tease me you play with me just like a toy
oh please me give me something i enjoy

what do i do i think shes coming over here
i ask my friends but they think i had too many beers
but i dont drink, whats the other explanation here?
look what youre wearing i think your eye is turning
queer

but wait a second that cant be right
i just went shopping for this stuff last night
he just went shopping for this stuff last night
whoa i think shes coming oh wait no shes not
oh my gosh shes so hot

you tease me you play with me just like a toy
oh please me give me something i enjoy

hold up shes walking by

dreams come true, it could happen to you

you tease me you play with me just like a toy
oh please me give me something i enjoy
