

## Love Equals Death "Numb"

Good friends and indecisions make good company  
I think, I'll drink myself to sleep  
No time to waste, just my sanity  
I'm gonna drink myself free

I'm so numb  
So numb, I can't feel respect for the finer things in life  
So numb  
I found heaven tonight

He couldn't get it together not even if he tried  
They say his spirit has died  
That's what they say but we all make mistakes  
I think somebody has lied

I'm so numb  
So numb, I can't feel respect for the finer things in life  
So numb  
I found heaven tonight

No time to waste  
No time to waste  
No time to waste  
No time to waste  
No time to waste  
No time to waste  
No time to waste
