

Love Equals Death "Truth Has Failed"

Visit "[Truth Has Failed](#)" on MotoLyrics.com

The truth means everything to a dying heart
Where were you when things fell apart?
Excuses you gave insulted me
Take a long hard look at the truth and you'll see

You're all that I need
If you call I will be there
You mean everything
If you fall I will be there
You made this heart bleed

The truth has failed

Promises made in the dark
It's a fools game of heart to heart
Memories will fade just like a fire

This passion burns for old desires

You're all that I need
If you call I will be there
You mean everything
If you fall I will be there
You made this heart bleed

The truth has failed

The truth means everything to a dying heart
Where were you when things fell apart?
Promises made in the dark
It's a fools game of heart to heart
