I've got the feeling of pleasure
And happiness in my dreams and imaginations,
Pleasure and happiness of the endless love and
Endless loving, when your breasts on my chest make
My heart beat in total chaos & mess.
That music of my heart is conquered with the
Brutal waves of enormous exciting coming through
My body when touching and slow

Penetrating into your longing wet lap.
Our bodies have joined together and now they are
Waving in floods of wonderful
Orgasm, when our feelings and minds

Visit the unknown dimension
Of loving and endless love.
She's mysterious and exciting covered in a dark
Coat of a night, when only moonlight is allowed
To uncover the beauty of two naked bodies
Joining together in lovers act.

I would like to experience that happiness
A thousand times, the feeling of endless love
And endless loving, live my life in that unknown
dimension,
That's why I'm looking for another act of love
Of us with the hope in my heart.
