Sunshine.. (10x)

With your broken heart,  
You're afraid of the dark.  
So look at yourself then look at someone else,  
It's a party there and am going.

You might miss the chance to see the rainbows in,  
Don't be loneliness; be your only friend,  
You gotta fight for one when ya know its right,  
A brand new thing is about to begin tonight.

(Chorus)

Here comes the sunshine,  
Here comes the stars from mornin' and everything  
from above,  
Here comes the sunshine,  
Here comes the sha la la la la la la la la la.

Sunshine.. (4x)

It's a party up here and i'm leavin' the world behind.  
I'm not waistin' anytime,  
Not even gonna say goodbye..  
It's a party up here, It's a party up here, IT'S A PARTY UP  
HERE..  
Oooh; yeah.

(Chorus part 2)

Here comes the sunshine,  
Here comes the sha la la la la la la la la la.  
Here comes the sunshine,  
Here comes the sha la la la la la la la la la.  
Here comes the sunshine,  
Here comes the stars from mornin' and everything  
from above.  
Here comes the sunshine,  
Here comes the sha la la la la la la la la la..

Heeey aah yeahh..

Mmmm... yeah..; uhh huh yeah..  
Heeey aah yeahh..  
huh yeah.. (2x)

Don't give up a feelin' if it's what you feel,  
Holdin' on something good, it's so unreal,  
You gotta fight for one when ya know its right,  
A brand new thing is about to begin tonight..

huh yeah..  
Heeey aah yeahh..

(Chorus part 2)

Here comes the sunshine,  
Here comes the sha la la la la la la la la la.  
Here comes the sunshine,  
Here comes the sha la la la la la la la la la.  
Here comes the sunshine,  
Here comes the stars from mornin' and everything  
from above.  
Here comes the sunshine,  
Here comes the sha la la la la la la la la la..

Sunshine.. (9x)
