I try to be a person of you  
These thoughts attack my soul from angels  
I try to see  
Past all the lies  
Past the sin of the world  
Faulse ideals tear me apart  
Pray for and hope of change

This is my cross to bear  
My cross  
My choice  
My life  
This is my cross to bear

I work so hard to be what you wanted for me

You bore the cross so I could be  
You died so I could live  
You died so I could breath

I work so hard to be what you want  
You were born so you could die  
You carried my sins on the cross  
You died so I could be alive

My cross to bear  
My cross to bear
