

Love Lies Bleeding "Ante-persistence"

L'espace vide laisse place au nœud le plus infertile.
Il ne reste rien de nos espoirs de salut.
Ce grondement est celui du rien:
bruit sourd d'une stérilité définitive...
A la limite du pire, d'un bonheur intolérable...
Eros s'éloigne et pourtant je sens encore sa
présence.
The breath of life seems so far away no more illusion,
I have to see the face of emptiness,
the colour of chaos Passionless visions of pure
destruction

Believe in me

This plague, loveless, complete nihilism closes the
gate of time

believe in me

End of time
End of light
Pleasure and suffering become putrefied dreams
I feel no more the caress of life

Le silence perdure dans son emprise égoïste et
pourtant je crois discerner un faible soupir
My eyes need a new substance
My ears reject their lethargy
Blood have to run again
Blood have to run again

I'm nothing but I feel the spirit of the being
I'm nothing but hope embraces my bones

The caress of the light, the end of the night
I'm waiting for the dawn Believe in me

His hands are trembling, his will is pure weakness Fire
has to be set

believe in me

May they stay in their abyss waiting for their existence
Pathetic souls and regrets
I laugh as they fall I don't believe in him And I just
believe in me
Ante persistence, something is near
Despite its absence
It's already there
ante persistence, something is near
