Between chaos and harmony  
Between birth and genocide  
Between them and me  
"I" am nowhere

Please let me be somewhere  
Please let me be someone

Here nothing remains  
I am the nameless shadow  
Searching for his soul

Bring me light  
Give me your night  
Lead me, it must be something  
Bring me light  
Give me your night  
Lead me, there must be something

I want to live, I want to die  
I just want to be at your side  
But the symphony ends always too early  
Without a single sigh...

Bring me light  
Give me your night  
Lead me, it must be something  
Bring me light  
Give me your night  
Lead me, there must be a meaning

My skin is so alone  
My body is useless

I am not, I no longer exist  
Nothing is yours, nothing is mine,  
You're the substance who create names  
But will you understand that here,  
You are pure weakness?

I am not, I'm no longer there  
I am not, I'm no longer there

I am not, I'm no longer there  
I am not, I'm no longer there

Bring me light  
Give me your night  
Lead me, it must be something  
Bring me light  
Give me your night  
Lead me, there must be a meaning

I want to live, I want to die  
I just want to be at your side  
But the symphony ends always too early  
Without a single sigh...  
(Let me drift away)

Please let me be somewhere  
Please let me be someone  
Please let me be somewhere  
Please let me be someone

I used to dream that I had a life  
My blood is cold, cold as yours  
My heart is a void full of winds  
Suffering, senseless  
My veins are empty waiting for you  
Pleasure, senseless

I reject their fake paradise  
Give me hell!  
I belong to you  
Let me see the colors of reality  
Reject / inject / loaded

Between chaos and harmony  
Between birth and genocide  
Between them and me  
"I" am nowhere

Let me be somewhere, nothing remains  
I am the nameless shadow searching for his soul

I fall, I feel  
Hail to you mighty goddess  
Come to me, come in me  
At last...

I fall, I feel  
Surrounded by a deep black hole  
I start to see  
This hole of knowledge

Carries me away

I don't dream anymore

I fly over;

Over their life

You are true within me

Suffering as vector

I am real within you

Pleasure, as guide

Now I live, now I die

I'll be forever at your side

The symphony starts

As we drown in ecstasy
