A memory so cold now, as I weep on your graves...  
Like withered rose petals, some drops of bloodfall on  
the marble  
Through a veil of tears my eyes look a last time at the  
darkening sky  
I know I will never see it burning in its twilight's blaze  
again  
And yet I can only feel the caress of the winds that are  
rising for me  
The cold look of the awakening stars...sublime infinity !  
Night of solitude, inspire me in my end  
Let the curtains fall at last, and let me leave you tonight  
I can hear your voices among the call of the stars  
I know this infinity before my eyes is taking me away  
This blessed vertigo makes me feel renewed  
The night is ours forever  
Open your arms, be my poison, and help me reach the  
edges of time  
Rise winds as I stand for the last time before you  
Carry my soul, fly with my words  
To the land where they lay and wait  
Tell them that soon I will come to them  
This earth crumbles below me  
The stars open the gates to eternity  
Oh muses that once inspired my words  
The nine of you have betrayed and deserted me  
Now I hear inly the sad song of the mermaids of the  
night  
Come to me spirits that alive I couldn't see !  
\*And show me the way to the world of regrets  
And let me cry forever, as a forlorn entity lost in time  
Night of solitude, inspire me in my end

Open the doors that lie beyond  
And greet me in your arms  
Oh infamous blade, you look upon my despondant  
heart  
With such a greedy look, and yet you guide me to my  
rest and peace !  
(Until nothing remains, I will be waiting for my end  
Life passed by, and yet nothing remained...)  
The caress of the steel, the embrace of the night

Now I feel my body's falling  
But my soul will reach the sky...  
Beware ! Spirits from heaven or hell sent  
Neither kingdom I wish  
But the infinite plenitude of the burning horizon  
You ! That dwells in the air  
Beware of my wrath !  
No god nor devil to take me from emptiness  
So dismiss when I say !  
Sweet coldness of iron, come and rape my wrist  
Oh caress of steel, embrace of night  
Twilight of my life  
Rebirth of my soul  
Oh caress of steel, embrace of night  
Every night let me die again  
For I long the kiss of...death  
Looking down on the earth  
My body lays they cry around  
I am dead and yet my eyes do cry  
I am dead and yet my mouth do smile...  
You haunting ghosts of the past come to me  
Great winds set my soul free to wander  
You haunting ghosts of the past come to me  
And let me join your garden of nevermore  
Horned angels take my soul far beyond  
Where the sun never rises never sets
