Â« Je suis la fille du dÃ©sespoir, la maladie mortelle,
Une messaline vÃ©tue de noir qui inlassablement
t'appelle Â»

The horizon starts to bleed, the sky closes its eyes
And cries tears of crystal and of ebony.

A new age of mourning and warm tragedy
Spread like a mist of incandescent ashes in my soul.
Once again...

A symphony of endurable pleasure ablazes my heart
When I hear these whispers from the dark : her
lamentations...

The call of the snake embraces me,
I feel infamous desires : flesh, fire, fever...Despair of
temptation..

A purple cyclone, deep in my eyes, becomes my only
god,
Just because of her lamentations...

(Suddenly) : the celestial vault opens a new eye, white
as ivory :

A pale queen dressed with black clouds, midnight ! My
time has come !

The wind sweeps away my fear, the wind brings the
sin,

The flower of all sweet diseases,
A mighty desire surrounds my weak mind, erases my
memory :

I'm no longer what I was. I become a new slave of the
fleshy plague

When a wave of red darkness mermerizes my
consciousness.

Black star ! Why did you turn your light on me ?

Now what I want most is her lips

Lethal desire ! Consume me with ecstasy

Orpheus my love ! Come and close your wings on me...

Â« Juste un instant charnel... Â»

The icons scream, the virgin cries,

SSShe has lost one of her children just because of her
lamentations

My existence melts in this night without end...

Eros, sad spirit, dies in forgetting, forsaken by my
heart, denied by my feelings.

Angels dies in my heaven, beheaded by my witch.
Morbid visions assault me a wolf's rage invade me : I
come !
Eternit  charnelle...
Viens avec moi dans ce brouillard, poss d  par
l'anath me.
Laisse-toi mourir, il est trop tard. Je t'aime...
The osmose reaches its climax, we have come one :
Virtue and vice...Vice as virtue...
