I'm no sinner, will you stop that
From crawling out of your stupid face
Stimulator, ain't gonna chase us out
I'm no hollow, that easy
For you to break that door
Situation ain't gonna change at all

My pride, my pride, my pride

I cannot live to hate and
To duplicate your life
Angels linger and bestow upon us
Light your candle, in this darkness
And tell me your miserable, pathetic lies
There's no reason for me to believe at all

My pride, my pride, my pride

I should have seen it coming
I should have seen it coming
I should have seen it coming

I should have seen it...

Feed me with your sweet addictive kiss
Poison my mind and let it fly
Discarding my sins with your bliss
I thank you for even trying

So mystical! So immature!
Say you're gonna make me
Make me lie just for a while
Sleeping with a sack of gold
To dismiss the likes of heathen souls

I'm no sinner, will you stop that
From crawling out of your stupid face
Stimulator, ain't gonna chase us out
I cannot live to hate and
To duplicate your life
Angels linger and bestow upon us

My pride, my pride, my pride
