We just need to drive along the street,
there'll be a coffee shop around the corner,
She said "Oh man I can't go to sleep,
and I can't believe that it is over now."
Hold me now I'm on the verge,
I'm on the verge of the sudden leak,
please tell me this is just a dream,
I can't believe that this is over now

Grow up and look around baby,
don't nag on whom to blame honey,
Something's missing and you're better than,
Just good enough baby.
Stop crying, you're no better with stupid,
Look up for the sunlight baby,
Something's missing and you're better than,
Just good enough baby.

Need to build the fortress inside your castle,
you leave the doorway with a million of needles,
Shape your mind like the mind of wise,
so you won't be falling out to your darkness,
It's obvious to see you're trembling over,

well everybody is when it comes to this,
Leave your misery come along with me,
we share this blunder of tranquillity.

Grow up and look around baby,
don't nag on whom to blame honey,
Something's missing and you're better than,
Just good enough baby.
Stop crying, you're no better with stupid,
Look up for the sunlight baby,
Something's missing and you're better than,
Just good enough baby.

Mind your words I'm on the line of fire,
streak of mindless obsessions,
I won't be telling what to
do of all the things that I would do,
streak of mindless obsessions,

Slowly I rebuild the fortress of a million,
Gracefully I steal the light of fortress of a million.

I'm done here...
Something's missing and you're better than,
Just good enough baby.
