### "Change In The Weather"

Visit "[Change In The Weather](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Watch out sweet thing  
A change in the weather  
Is all that you bring  
Look up the weather's strange  
The only thing we know  
That's gonna come for sure is change  
Look at my life go round and round  
Hands on the clock still turning  
Now i want it but i just can't see  
I want that and that's just like me  
Goodbye, bye kids  
Where you gonna run  
From the things you keep hid  
Look out the weather's strange  
The only thing we know  
That's gonna stay the same is change  
Look at my life go round and round  
Hands on the clock still turning  
Now i want it but i just can't see  
I want that and that's just like me  
You know it's me  
That picks you up  
You know it's me  
That puts you down  
Watch out sweet thing  
A change in the weather  
Is all that you bring  
Look up the weather's strange  
The only thing we know  
That's gonna stay the same is change  
Look at my life go round and round  
Hands on the clock still turning  
Now i want it but i just can't see  
I want that and that's just like me  
You know it's me  
That picks you up  
You know it's me  
That puts you down
