All right, all right  
So here we are livin' it day by day  
You are a super star  
At least that's what you used to always say

Queen of the prom  
And the Christmas day parade  
Well ain't it sad to slowly watch yourself fade

Into that girl you never dreamed you'd see  
Talkin' 'bout the way things used to be  
And thinking that your best years are already behind  
you

Chorus:  
Go where you want to  
But don't you forget now baby  
It's not where you been it's where you are

All right all right  
Well that's ok  
I believe you lost your nerve  
I think it's safe to say  
When life throws you a curve ball

Picking yourself up off the ground  
Is a lot more fun with a firend around  
You need to be reminded that the best years are right  
now

Chorus

You know it's really been a while  
Since I've seen you smile  
And I miss that girl I knew long ago  
You're still the same glitter girl  
Who used to rule my world  
All you need is a helping hand  
And someone to say...  
It's all right all right all right  
All right all right all right
