

Love Spit Love "Never Be Wrong"

Visit "[Never Be Wrong](#)" on MotoLyrics.com

Don't lose faith
In the things you hold to be the truth
Because it won't take long
'Til the dark days come
And the wind blows strong
And we can never be
Never be wrong

Please don't wait
For the wheels that turn the world around
Because it won't take long
'Til the dark days come
And the wind blows strong
And we can never be
Never be wrong

Don't lose hope
There's a face in every crowd for you
And it won't take long
'Til the dark days come
And the wind blows strong
And we can never be
Never be wrong
And it won't take long
'Til the dark days come
And the wind blows strong
And we can never be
Never be wrong
