Tonight is the night  
They'll be coming through your windows  
And your doors so lock them tight...  
And keep a gun right by your side...

You'll have nowhere to run...and nowhere to hide  
You can't just turn your back this time

It tears me apart...it tears me apart

You figure we could see with our eyes open...  
Better than we could see with our eyes shut so tight...  
eyes shut so tight

And when you dream I hope you dream in color  
So that you see the red parade

And when you dream...I hope you dream in color

...at sunrise...Our darkest fears will subside when  
these shadows turn to daylight  
or we'll see the damage that's been done...from  
the night before  
when we closed our eyes

they're branding a knife with their stare....  
They'll paralyze with blood shot eyes  
their bloodshot eyes

They're on a mission for the sound...the sound of a  
scream like...  
one thousand knives
