

Love Takes Flight "Young Guns"

Visit "[Young Guns](#)" on MotoLyrics.com

We are the rising stars...this hopeful generation
We're young guns shooting for the prize
And our hearts are full of blood...ready just waiting to
burst
Failure carries pins and needles

With a sensibility we cut the strings now
Watch it fall straight to the floor
And watch it fall apart

Is there no cure in sight?
Is there no love alive to keep us moving on?

But I'll be right here by your side
If there's no love alive...if there's no hope inside
Just keep us moving....cause I'll be right here by
your side

We are the fallen stars...this broken generation
So young so hopeless of a fight
My heart was full of blood...ready just waiting to burst
