I've got a brand new dream
I know in dreams I'll find myself again
I've got a brand new dream
The other ones I had went down the drain

Now all I'm asking for is peace
Another chance, a brand new lease

I've got a brand new hope
And hope will get me on my feet again
I've got a brand new hope
The one I lost almost drove me insane

Now all I need's a little rest
A second try, I'll give my best
Is it too much?

Goodbye spotlight
Shine on someone new tonight
Goodbye goodnight
Can we stop the fight

Inside my brand new dream
A certain special key unlocks my heart
Inside my brand new dream
It could have been the end
But it's a brand new start

Now all I'm asking for is love
Somebody new to push and shove
Is it too much?

Goodbye spotlight
Shine on someone new tonight
Goodbye starlight
Yes it's gonna be alright
Goodbye goodnight

Can we stop the fight
Can we stop the fight
