These sounds always make me think about you
How we played that one song all night long for us two
Now I can't listen to that record no more
'cause it stirs me up too much

These sounds always keep me longing for you
About those few weeks that I had spent with you
But today I don't ring your number no more
'cause you won't be home for me

I wish I wish I wish that I could
Leave it now behind
I wish I wish I wish I could live
My life without you again

Won't you leave me now alone
I wouldn't mind

These sounds make my days brighter and warm
They bring back tiny little pieces of you
But they just last for a minute or so
And then they disappear

And so I don't mind how far away that you are
Cause I found that way to get you back here somehow
I must be a person that you can't understand
'cause I take these things so hard
